More Than K-Pop

DGKS Website

Bring Korea to the world and the world to Korea at the Division of Global Korean Studies.

Here, you can discuss and share thoughts and ideas on issues facing Korean society, including politics, economics, society and culture (even K-Pop!)

The Division of Global Korean Studies provides students with opportunities to cultivate a convergence mindset that allows them to cross disciplinary boundaries.

This helps them retrace Korea's historical journey and contemplate its present and future in a rapidly changing world. Gaining a deep understanding of Korea from a global perspective enables students to grow into talented professionals with both creative and analytical problem-solving skills.
